Technology, Thailand.

4th International Symposium on
**DISASTER RESILIENCE AND
SUSTAINABLE DEVELOPMENT 2025**

SUSTAINABILITY THROUGH DEVELOPMENT

THEMATIC AREAS

1 CLIMATE
CHANGE,
ADAPTATION &
NATURE BASED
SOLUTIONS

2 HUMANITARIAN
ASSISTANCE,
EMERGENCY RESPONSE,
REHABILITATION &
RECOVERY

3 INFRASTRUCTURE
RESILIENCE TO
NATURAL HAZARDS

4 MOUNTAIN HAZARDS,
VULNERABILITIES AND
RESILIENCE BUILDING

5 DELTAS, COASTAL
AND ESTUARINE
SYSTEM

6 REMOTE SENSING & BIG DATA FOR
OCEAN AND ATMOSPHERIC MODELING
AND EARLY WARNING SYSTEMS

7 DISASTER
ECONOMICS
AND RISK
GOVERNANCE
POLICIES

8 INTEGRATIVE AND
INCLUSIVE
APPROACHES FOR
RESILIENCE AND
SUSTAINABILITY

The evolution of disaster risk has become more complex due to the effects of climate change, advancements in technology and infrastructure, and growing anthropogenic pressures. The impending risks have wide-ranging and long-term implications for societal sustainable development. Under current development pathways, the world should prepare to face the possibility of more compounding hazards and complex risk landscapes in the future brought on by biological, technological, natural, and man-made hazards, of which many are interrelated and self-perpetuating. Devising adaptation and mitigation measures require deeper expositions and investigation of risk drivers in order to achieve sustainable development goals.

REGISTRATION FEES

CATEGORY	FEES	
	EARLY BIRD	REGULAR
<i>Registration fee includes coffee, snacks, conference kit and publication charges.</i>		
STUDENTS UNDERGRADUATE, GRADUATE, POST GRADUATE	200 USD 6500 THB	250 USD 8500 THB
NON-STUDENTS FACULTY, RESEARCHERS, PRACTITIONERS, PUBLIC, PRIVATE AND CIVIL SOCIETY ORGANIZATIONS	300 USD 10000 THB	350 USD 11500 THB

The “4th International Symposium on Disaster Resilience and Sustainable Development”, referred to as DRSD 2025, organized by the Asian Institute of Technology, gathers experts, practitioners, policymakers, and students from Asia Pacific and beyond to present a discourse on improving development practices to reduce long-term complex risks and promote equitable sustainability. With wide-ranging thematic areas and diverse participation, DRSD 2025 is well placed to explore the complex challenges faced by Asia Pacific and beyond and collaborate for effective solutions.

The international symposium will be held from 24-26 November 2025 as a fully offline and in-person event. The program will include keynote speeches, panel discussions, technical sessions, poster presentations, and academic exhibitions. DRSD 2025 will also serve as a platform for participants to build new networks and partnerships or strengthen existing ones to enhance future collaboration opportunities. The conference is open to academics, practitioners, students, public officials, private institutions, non-governmental organisations, and intergovernmental organisations within the disaster risk reduction and sustainable development sectors. Participants from Asia Pacific and beyond are open to join.
